

CHEMICAL & FERTILIZER CORPORATION

Material Safety Data Sheet

Section 1 - Chemical Product and Company Identification

Product Name: POD CEAL™ DC Canada
Chemical Name: Cyclo hexane polymer
Common Name, Synonym: Cyclo hexane polymers
Material Uses: Agricultural
Manufacturer/Manufactured For: Miller Chemical & Fertilizer Corporation P. O. Box 333, Hanover, PA 17331
 Phone (717) 632-8921 FAX (717) 646-1104 CHEMTREC (800) 424-9300 24 hours every day

Section 2 - Composition / Information on Ingredients

Ingredient Name	CAS Number	%
Polymers of cyclohexane	N/A	935 g/L
MISTS	N/A	245 mg/m ³
This product has been tested as a whole to determine it's hazard – see section 11		

Section 3 - Hazards Identification

☆☆☆☆☆ Emergency Overview ☆☆☆☆☆

Primary Entry Routes: Eye and skin contact is the most likely exposure. Ingestion is possible. Contact with or inhalation of sprays may cause irritation to eyes, nasal and throat.

Target Organs: Eyes, Skin and respiratory tract

Potential Health Effects:

Inhalation: Spray may cause irritation to nose, throat, mucous membranes, coughing, or difficulty in breathing

Eye: May cause eye irritation.

Skin: May cause irritation

Ingestion: Large doses may cause nausea, vomiting, and stomach pain or cramps.

Acute Effects: Irritation

Chronic Effects: None known

Medical Conditions Aggravated by Long-Term Exposure: None known

Section 4 - First Aid Measures

Eye Contact: Flush gently and thoroughly for 15 minutes with large amounts of clean water, occasionally lifting upper and lower lids. Seek medical attention if irritation persists

Skin Contact: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water. If redness or rash develops and persists, seek medical attention. Wash or clean contaminated clothing and shoes before wearing again

Ingestion: Seek medical attention immediately. Do not induce vomiting.

Inhalation: If respiratory symptoms develop, remove person to fresh air immediately. Begin artificial respiration or CPR (cardiopulmonary resuscitation) if required and seek medical attention as appropriate

Notes to Physician: None Known

Section 5 - Fire-Fighting Measures

Flash Point: Over 100°C TCC

Autoignition Temperature: Not determined

LEL/UEL: Not determined

Extinguishing Media: Foam, carbon dioxide, Dry Chemical, Water spray or Sand/Earth.

Hazardous Decomposition Products: Oxides of carbon under fire conditions.

Fire-Fighting Instructions: Keep unauthorized personnel away. Wear full protective clothing and self-contained breathing apparatus. Stay upwind. Stop spill/release if it can be done without risk. Apply water spray to knock down and absorb fumes and vapors and cool affected containers. Control runoff waters. Ventilate closed spaces before entering. Always stay away from the ends of tanks

Fire-Fighting Equipment: Full protective clothing and self-contained breathing apparatus

Unusual Fire or Explosion Hazards: Evacuate people downwind from fire and control runoff.

Section 6 - Accidental Release Measures

Spill /Leak Procedures: ELIMINATE ALL SOURCES OF IGNITION. DIKE OR IMPOUND TO KEEP PRODUCT OUT OF SEWERS AND WATERCOURSES. ABSORB SPILL WITH INERT MATERIAL. SHOVEL INTO WASTE CONTAINERS.

Flush area with water, contain and remove cleanup liquid. Small amounts of spilled liquid may be absorbed using appropriate absorbent material. As conditions warrant, notify proper authorities, downstream sewer and water treatment operations, and other downstream users about potentially contaminated water

Section 7 - Handling and Storage

Handling Precautions: It is advisable to wash promptly if skin becomes contaminated; before eating, drinking, using tobacco, or chewing gum; before using toilet facilities; and at the end of the work shift before leaving the worksite

Storage Requirements: Store at temperatures between 41°F and 104°F (5°C and 40°C), in well-ventilated areas away from heat or flame. Do not contaminate water, food, feed by storage or disposal. Follow good industrial hygiene practices.

Regulatory Requirements: None Known

Section 8 - Exposure Controls / Personal Protection

Engineering Controls:

Ventilation: None required under normal conditions

Administrative Controls:

Respiratory Protection: A NIOSA/MSHA approved respirator should be worn when dusting/misting occurs

Protective Clothing/Equipment: Chemical protective goggles should be used where splashing may occur. Wear rubber or neoprene gloves where splashing may occur. If irritation occurs, impervious clothing and gloves should be worn. Boots and a hat should be worn as well.

Safety Stations: Not Known

Contaminated Equipment: Not Known

Comments: None

Section 9 - Physical and Chemical Properties

Physical State: Liquid

Appearance and Odor: Amber liquid/terpene odor

Odor Threshold: Not Known

Vapor Pressure: Not known

Vapor Density (Air=1): Not known

Percent Volatile (by volume): Negligible

Evaporation Rate: Negligible

Formula Weight: Not Applicable

Density: 7.67-7.84 lb/gal @ 20c

Specific Gravity (H₂O=1, at 4 °C): 0.92 – 0.94 @ 20c

pH (1% solution): 7 @ 20c

Solubility in water: Emulsifies

Section 10 - Stability and Reactivity

Stability: Stable

Hazardous Polymerization: None Known

Chemical Incompatibilities: Strong oxidizers

Conditions to Avoid: Strong Oxidizers , High Temperatures, Sources of Inginition

Hazardous Decomposition Products: At high temperatures product may release oxides of carbon

Section 11- Toxicological Information

Toxicity Data:*

Eye Effects: May cause irritation

Acute Dermal Effects: LD₅₀ (rabbit)
>5050mg/kg

Acute Oral Effects: LD₅₀ (rats) 5050mg/kg

Acute Inhalation Effects: 4-hour
LC₅₀(rat):>2020 mg/L

Chronic Effects: Not known

Carcinogenicity: None found for this product

Mutagenicity: None found for this product

Teratogenicity: None found for this product

* See NIOSH, RTECS on listed ingredients for additional toxicity data.

Section 12 - Ecological Information

Ecotoxicity: This product is a spray adjuvant. Large spills could possibly damage vegetation. Contamination of waterways could possibly cause fish kills. Prevent spread and runoff into drains, storm sewers, and ditches that lead to waterways.

Aquatic Toxicity: Not Known

Environmental Fate: Not known

Section 13 - Disposal Considerations

Disposal: If uncontaminated, recover and reuse as product. If contaminated with other materials, the nature and extent of contamination may require use of specialized disposal methods. Consult local, county, state, or federal regulatory agencies for acceptable disposal procedures and disposal locations

Disposal Regulatory Requirements: Consult local, county, state, or federal regulatory agencies for acceptable disposal procedures and disposal locations

Container Cleaning and Disposal: Consult local, county, state, or federal regulatory agencies for acceptable disposal procedures and disposal locations
